

# Enviro-Wet

**Enviro-Wet** is a premium soil surfactant designed to reduce problems associated with soil particle hydrophobicity which can impede water penetration and movement through the soil profile.

**Enviro-Wet** is an effective wetting agent used to modify surface tension of the water contained in the soil, allowing for better movement in the soil. **Enviro-Wet** is used to attain more uniform distribution of irrigation water, reduce irrigation demands, assist in leaching undesirable salts and enhancing nutrient uptake.

### Derived From

**Enviro-Wet** is a non-toxic, non-flammable formulation of polyethylene glycol, phenol ethoxylates and other biodegradable wetting agents and surfactants.

### Benefits of Use

- Improves water penetration
- Reduces surface tension in soil particle inter sites
- Enhanced nutrient use efficiency
- Prevents standing water of accumulation
- Increases uniformity of Fertigation
- Diminishes irrigation demands.

### PACKAGE AVAILABILITY

**Enviro-Wet** is available in:

- 2.5 gallon jug (2 per case)
- 30 gallon drum
- 275 gallon mini bulk
- Bulk

### Application Instructions

**Enviro-Wet** is best used in conjunction with Liquid Ag Systems liquid fertilizer materials injected through pressurized irrigation systems. No special mixing instructions are required although conducting a jar test is always recommended.

### Handling and Storage

Store between 40-95° F. Avoid direct heat or fire. Decomposition may occur at high temperatures (above 225° F.). Do not freeze!

When spraying **Enviro-Wet** directly onto turf, it is advisable to test spray mixture on a small area before conducting widespread applications.

**Keep out of reach of children.** Harmful if swallowed. Avoid inhalation, eye contact, or ingestion. Avoid prolonged or repeated contact with skin which may cause irritation. Wash thoroughly after handling. Corrosive.

### Recommended Rates

Use 1-4 quarts of **Enviro-Wet** per 1,000 square feet of turf in the initial application and repeat at 1 quart per 1,000 square feet in regular intervals as needed.

### CONDITIONS OF SALE

1. Liquid Ag Systems warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with the directions under normal conditions of use. No one other than the officer of Liquid Ag Systems is authorized (and such authorization must be in writing) to make any other warranty, guarantee or direction concerning this product.

2. Because the time, place, rate of application, weather conditions and normal or abnormal conditions of use or storage are beyond Liquid Ag Systems control, Liquid Ag Systems liability is limited to replacement of product or refund of purchase price. In no event shall Liquid Ag Systems be liable for indirect or consequential damages.

If tank mixing **Enviro-Wet**, use 1-3 quarts per 100 gallons of spray solution per acre.
