

# Super Spectra

## 8-0-0

Super Spectra is a complete blend of micronutrients chelated with a proprietary combination of citric, fulvic and other organic acid chelates which stabilize nutrients and enhance their uptake and translocation within the plant. Citrates are the natural chelating compounds found in plant tissue giving them very low phytotoxicity. Micro-Special is designed as a foliar spray to correct or prevent a range of micronutrient deficiencies. It is compatible with most pesticides and fertilizers with the exceptions of amino formulation and high phosphate fertilizers.

### Guaranteed Analysis

Total Nitrogen (N).....	8.00%
8.00% Water Soluble Nitrogen (and/or Urea Nitrogen)	
Magnesium (Mg).....	1.50%
1.50% Water Soluble Magnesium	
Manganese (Mn).....	1.00%
1.00% Water Soluble Manganese	
Iron (Fe).....	3.00%
3.00% Chelated Iron	
Combined Sulfur (S).....	2.00%

Derived From  
Urea, Magnesium Nitrate, Manganese Sulfate, Ferrous Sulfate, Ammonium Citrate.

Physical Characteristic  
10.05 lb./gal

### Benefits of Use

- Balance supply of Mg, Mn, and Fe
- Rapid response from foliar uptake
- Increased nutrient uptake from humic acid
- Increased turf vigor

Problem Conditions Improved with  
Super Spectra (8-0-0)

- Wide range of nutrient deficiency symptoms

### PACKAGE AVAILABILITY

Super Spectra 8-0-0 is available in:

- 2.5 gallon (2 per case)
- 5 gallon pail
- 30 gallon drum
- 275 gallon mini bulk

### Handling and Storage

Store between 40-95° F. Avoid direct heat or fire. Decomposition may occur at high temperatures (above 225° F.). Do not freeze!

Keep out of reach of children. Harmful if swallowed. Avoid inhalation, eye contact, or ingestion. Avoid prolonged or repeated contact with skin which may cause irritation. Wash thoroughly after handling. Corrosive.

### CONDITIONS OF SALE

1. Douglass Fertilizer & Chemical, Inc. (DFC) warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with the directions under normal conditions of use. No one other than the officer of DFC is authorized (and such authorization must be in writing) to make any other warranty, guarantee or direction concerning this product.

2. Because the time, place, rate of application, weather conditions and normal or abnormal conditions of use or storage are beyond DFC's control, DFC's liability is limited to replacement of product or refund of purchase price. In no event shall DFC be liable for indirect or consequential damages.

### Application Instructions

Apply 6 oz. per 1000 sq. ft. of turf in 2.5 gal. of water, or 2 gallons per acre diluted in 50 gallons of water. This product should be used as a supplement to a regular fertility program. It will not by itself provide all the nutrients normally required by plants.

A pre-mix "jar test" is recommended to check compatibility of product combinations that have not been previously tested.

**Shake well before using.**
