

Enhancer

6-0-0

Enhancer (6-0-0) is a complex soil conditioner containing a unique mixture of organic acids and biostimulants derived from a biological composting and extraction process. Supplementary micronutrients and plant growth hormones are added creating a product that improves soil properties, increases nutrient availability to the plant, stimulates soil microbial activity, and improves overall turf quality. **Enhancer (6-0-0)** can be applied as a soil enhancer through fertigation or conventional spray, or tank-mixed with N-P-K nutrient blends as an organic supplement to improve the overall effectiveness of a turf fertility program.

Benefits of Use

- Increases tolerance to mid-summer stresses
- Increases nutrient uptake by plants
- Supports soil microbial activity
- Stimulates root growth
- Increases seeding establishment in new turf and overseeding
- Increases water and nutrient holding capacity in soils over time
- Increases overall plant vigor
- Increases nutrient recycling
- Aids in decomposition of thatch and black layers
- Easily applied through fertigation

Problem Conditions Improved with Enhancer (6-0-0)

- Poor nutrient retention in sandy soils
- Low levels of soil microbial activity
- Anaerobic soil conditions
- Soil compaction
- Poor water infiltration
- Black layer formation
- Toxic conditions from salt or chemical accumulation

Guaranteed Analysis

Nitrogen (N)	6.00%
6.00% Urea Nitrogen	
Iron (Fe)	0.10%
0.10% Chelated Iron	
Manganese (Mn)	0.05%
0.05% Chelated Manganese	
Zinc (Zn)	0.05%
0.05% Chelated Zinc	

Derived From

Urea, Iron Hydroxyethylethylenediaminetriacetate, Manganese Ethylenediaminetetraacetate, and Zinc thylenediamineetraacetate. This product also contains organic acids and biostimulants derived from composting.

Physical Characteristics

8.9 lb./gal. (0.5 lb. N/gal.); pH 7.0; color – dark reddish brown or chemical accumulation

PACKAGE AVAILABILITY

Enhancer (6-0-0) is available in:

- 2.5 gallon jug (2 per case)
- 5 gallon pail
- 30 gallon drum
- 275 gallon mini bulk

Application Instructions

Enhancer (6-0-0) can be applied as a soil conditioner through fertigation or conventional spray, or tank-mixed with fertilizer solutions to enhance performance.

Apply 3-6 oz. of product in 2.5 gal of water per 1000 sq. ft. of turf per month, or 1-2 gal. of product in 50 gal. of water per acre per month. It should be used as a supplement to a regular fertility program. It will not by itself provide all nutrients required by plants.

Shake well before using.

CONDITIONS OF SALE

1. Douglass Fertilizer & Chemical, Inc. (DFC) warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with the directions under normal conditions of use. No one other than the officer of DFC is authorized (and such authorization must be in writing) to make any other warranty, guarantee or direction concerning this product.

2. Because the time, place, rate of application, weather conditions and normal or abnormal conditions of use or storage are beyond DFC's control, DFC's liability is limited to replacement of product or refund of purchase price. In no event shall DFC be liable for indirect or consequential damages.

Handling and Storage

Store between 40-95° F. Avoid direct heat or fire. Decomposition may occur at high temperatures (above 225° F.). Do not freeze!

Keep out of reach of children. Harmful if swallowed. Avoid inhalation, eye contact, or ingestion. Avoid prolonged or repeated contact with skin which may cause irritation. Wash thoroughly after handling. Corrosive.
